

TRANSGENDER OPERATED CAFÉ - T CAFÉ

NGO Partner: Gaurav

Project Size: 25.48 lacs

Project Summary:

The intention of the Trans Café was to help the inclusion of the transgenders into mainstream society and make them productive members. It also gives an opportunity to the public to interact and accept them as individuals in their own right. The café is located at Andheri and was inaugurated on 7th October 2022. The café is being run and managed by members of the Transgender Community – a community that is subject to discrimination and hostility.

Impact & Challenges:

The project got a lot of mileage in media and in other communities and a lot of awareness was created about including the transgender community into mainstream society. It also intends to work as a training ground for other transgenders who could get jobs in restaurants.

One of the challenges is that the sales at the café has not picked up and footfalls are not up to expectations. Unless the sales pick up, they would be running in deficit.
