

VALUE BASED EDUCATION FOR STREET CHILDREN.

NGO Partner : We Can Foundation.

Project Size: Rs.12 Lakhs

Project Summary:

We Can Foundation was started in the year 2013 by Rajshree and is run from a premises outside a Saibaba Mandir at Borivali. Their mission is to realise the children's unlimited, and very often, untapped potential through a process of an awakening and a value-based education. In addition to academics, they focus on building up the "self".

Impact & Challenges:

Currently 54 street children (in 2 batches) aged between 4 to 16 are being provided value education, confidence building through motivated talks, English speaking, maths tutorials, and game play. The funds given by Rotary are also used to give nutritional food to those students who attend.

Space constraint is a big challenge and so is the fact that the project is driven by a single person without any succession plan.
